

More HTML, CSS

Sign up form

Problem: You want to make a sign up form for your new web application.

We need:

Username, Age, Email

HTML, CSS

HTML

form0.html: outline

form1.html: form, label, input, button

form2.html: .form-group

CSS: <http://goo.gl/iLdqyi>

body

- entire background color rgba
 (76, 160, 42, 1)
- text color white

CSS: <http://goo.gl/iLdqyi>

#header

- white box stretches across entire width of browser page
- white box is 50px from top of window: attribute? margin or padding?
- 18px of space between text and box border: attribute? margin or padding?
- text is centered

CSS: <http://goo.gl/iLdqyi>

#signup

- the form is horizontally centered on page
- the form background color is transparent

CSS: <http://goo.gl/iLdqyi>

#signup .form-group

- last child of “#signup .form-group” is centered in the form (all other children should be right-aligned)

#signup .form-group input

- borders of input boxes are solid, white with opacity 0.1, and have a border-radius of 4px.

JavaScript

- We just wrote the HTML and CSS for a form.
- Now let's think about form validation → we need JavaScript!
